set your school apart

with **learnstor**[™]
in every classroom

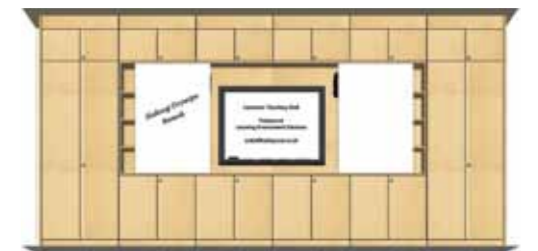

Learnstor is a modular storage system designed specifically for educational environments. All classroom storage requirements are easily accommodated including integration of dry-wipe and existing interactive boards, to create a clean, uncluttered learning environment whilst providing a superb focal point in the room for teaching.

basic configuration

full width

full width and height

enhance teaching, maximise classroom space,
attract pupils and staff. create a **WOW!** factor.

learnstor[™] teaching wall

transforming and upgrading
classrooms nationwide

- Specification for all ages – Primary, Secondary and Tertiary.
- Fits to any specified area, proven to substantially increase useable floor space.
- Integrates all models of interactive whiteboard.
- Provides huge storage capacity, doing away with the traditional, space-wasting assortment of individual cupboards and trays.
- Focuses students' attention with an uncluttered backdrop for teaching.

"We have been particularly impressed with their learning walls, a fresh look at how to keep classrooms free of clutter... they have been responsible for giving our school a 'WOW!' factor"

head teacher, London secondary school
